GENESISVOG LLC

CAPABILITY STATEMENT

Multilingual AI Data Quality, Language & Digital Media Services

New York City, NY | genesisvog.com

GENESISVOG LLC provides specialized digital services for government agencies, prime contractors and commercial organizations requiring reliable human review, multilingual capabilities, data-quality support and professional digital content production.

CORE CAPABILITIES

AI & Data Quality - AI-generated content evaluation, dataset quality assurance, human-in-the-loop review, data/image/video annotation, content classification and data collection. Text, image, audio and video content.

Multilingual Services - Translation, transcription, linguistic validation, multilingual content review and dataset evaluation. Languages: English, French, Arabic, Italian and Spanish.

Digital Media - Video production, post-production, graphic design, audiovisual content, digital communications and digital advertising assets.

Digital & Web Support - Website content preparation, digital communication support, document preparation and selected application and web development support.

CONNECTED EXPERTISE

AI/Data Quality + Multilingual Services + Digital Media. One organization supporting multiple content types with responsive communication and a flexible workflow. We focus on assignments that match our demonstrated capabilities.
